this thoroughly revised and updated second edition of methods for community based participatory research for health provides a step by step approach to the application of participatory approaches to quantitative and qualitative data collection and data analysis with contributions from a distinguished panel of experts this important volume shows how researchers practitioners and community partners can work together to establish and maintain equitable partnerships using a community based participatory research cbpr approach to increase knowledge and improve the health and well being of the communities involved written for students practitioners researchers and community members the book provides a comprehensive presentation of innovative partnership structures and processes and covers the broad spectrum of methods needed to conduct cbpr in the widest range of research areas including social determinants of health health inequities health promotion community interventions disease management health services and environmental health the contributors examine effective methods used within the context of a cbpr approach

including survey questionnaire in depth interview focus group interview ethnography exposure assessment and geographic information system mapping in addition each chapter describes a case study of the application of the method using a cbpr approach the book also contains examples of concrete tools and measurement instruments that may be adapted by others involved in cbpr efforts

community based health interventions in an institutional context examines challenges of institutionalizing community based health care while the community based or localized model is growing in popularity and importance in the united states in practice it must often be brought in to larger institutions in order to grow to scale the typical goals of an institution standardization formalization and control may be seen as antithetical to those of a community based healthcare provider such as spontaneity customization and flexibility the contributions to this work raise questions about how the community based model can be scaled up through institutions and how institutionalization can be rethought from a bottom up approach they provide not only an overview of community based organizations but also delve into practical topics such as establishing budgets training workers incorporating technology as well as more theoretical topics like goal setting policy effects like the aca and relationships between patient and community this work will be of interest for researchers interested in exploring the community based health care model as well as practitioners in health care and health policy

for decades community centered social services have been promoted as an admirable ideal yet the concept of decentralized services delivered where people live has proved to be an elusive ideal as well with the promise of empowerment often giving way to disinterest and apathy community based interventions examines the reasons community programs tend to founder and proposes a realistic framework for sustained success the book s theoretical philosophical and political foundations begin with the importance of context as in local knowledge and community self definition and engagement innovative often startling approaches to planning design and implementation begin with the recognition that communities are not targets or locations to be fixed but social realities whose issues require concrete answers the variety of examples described in these chapters demonstrate the power of community interventions in providing effective services reducing inequities and giving individuals greater control over their health their environment and in the long run their lives included in the coverage redefining community the social dimensions a new epidemiology to inform community work the role of research in designing community interventions the conceptual flow of a community based project building autonomy through leadership from below relating social interventions to social justice attuned to the current era of health and mental health reform community based interventions represents a major step forward in its field and makes an inspiring text for social workers clinical social workers public health administrators and community activists

this book provides an overview of the rapid development beijing has seen in a wide range of areas in 2018 both in itself and as an integral part of a larger region as china s economic development continues to improve in overall quality and regional coordination general reports on progress beijing made and problems it faced in 2018 in improving its economy public services and municipal and community governance urban planning and funding for innovations are followed by case studies that look at best practices and how they can be applied towards promoting coordinated development of the beijing tianjin hebei region the strategy features prominently in the outlook contributors present for the greater

metropolitan area of beijing for 2019 this book is a valuable source of reference for anyone trying to gain a better understanding the what how and why in relation to one of the world s fastest growing mega cities

this edited volume is an introduction to diverse methods and applications in operations research focused on local populations and community based organizations that have the potential to improve the lives of individuals and communities in tangible ways the book s themes include space place and community disadvantaged underrepresented or underserved populations international and transnational applications multimethod cross disciplinary and comparative approaches and appropriate technology and analytics the book is comprised of eleven original submissions a re print of a 2007 article by johnson and smilowitz that introduces cbor and an introductory chapter that provides policy motivation antecedents to cbor in or ms a theory of cbor and a comprehensive review of the chapters it is hoped that this book will provide a resource to academics and practitioners who seek to develop methods and applications that bridge the divide between traditional or ms rooted in mathematical models and newer streams in soft or that emphasize problem structuring methods critical approaches to or ms and community engagement and capacity building

as older adults and their families opt out of nursing homes a range of home and community based services hcbs have risen up to provide care hcbs span platforms and approaches from home health care to assisted living to community based hospice to adult day services these models are for most preferable to nursing homes and allow older adults to age in place live longer in their own homes and communities home and community based services for older adults examines the existing and emerging models of hcbs including the history theory research policy and practices across care settings emphasizing the multidisciplinary and interprofessional practice approaches used to deliver care this book is an essential learning tool for students interested in medicine nursing social work allied health professions case management health care administration and gerontology as the population of older adults grows the authors ask how can we best meet the needs of older adults and their families in the most effective cost conscious way while honoring their care choices

this book takes up the challenge of the failure of most initiatives in community based service delivery to address the significant philosophical shift that is necessary to create implement and evaluate appropriately these sorts of projects challenging the tendency to focus entirely on practicalities the authors emphasize the centrality of philosophy to any successful community based undertaking while fully acknowledging the importance of local knowledge and the guidance of projects by local people this volume shows that these principles are often at odds with the cartesian mindset that underpins much project planning with its emphasis on objectivity in science and knowledge since all knowledge is mediated by human activity and embedded in language and other modes of expression this dualist approach must be reconsidered a thorough rethinking of traditional service delivery which takes into account issues of data methodology and bias together with questions of generalizability community power and communication this book will appeal to scholars of sociology social policy and social work with interests in community based service delivery

since the 1950s and the advance of urban renewal local governments and urban policy

have focused heavily on the central business district however such development has all but ignored the inner city neighborhoods that continue to struggle in the shadows of high rise america this analysis of urban neighborhoods in the united states from 1960 to 1995 presents fifteen essays by scholars of urban planning and development together they show how urban neighborhoods can and must be preserved as economic cultural and political centers

a quiet revolution is taking place in america s forests once seen primarily as stands of timber our woodlands are now prized as a rich source of a wide range of commodities from wild mushrooms and maple sugar to hundreds of medicinal plants whose uses have only begun to be fully realized now as timber harvesting becomes more mechanized and requires less labor the image of the lumberjack is being replaced by that of the forager this book provides the first comprehensive examination of nontimber forest products ntfps in the united states illustrating their diverse importance describing the people who harvest them and outlining the steps that are being taken to ensure access to them as the first extensive national overview of ntfp policy and management specific to the united states it brings together research from numerous disciplines and analytical perspectives such as economics mycology history ecology law entomology forestry geography and anthropology in order to provide a cohesive picture of the current and potential role of ntfps the contributors review the state of scientific knowledge of ntfps by offering a survey of commercial and noncommercial products an overview of uses and users and discussions of sustainable management issues associated with ecology cultural traditions forest policy and commerce they examine some of the major social economic and biological benefits of ntfps while also addressing the potential negative consequences of ntfp harvesting on forest ecosystems and on ntfp species populations within this wealth of information are rich accounts of ntfp use drawn from all parts of the american landscape from the pacific northwest to the caribbean from honey production to a review of nontimber forest economies still active in the united states such as the ojibway harvest of plants recounted here the book takes in the whole breadth of recent ntfp issues including ecological concerns associated with the expansion of ntfp markets and ntfp tenure issues on federally managed lands no other volume offers such a comprehensive overview of ntfps in north america by examining all aspects of these products it contributes to the development of more sophisticated policy and management frameworks for not only ensuring their ongoing use but also protecting the future of our forests

this sweeping volume builds the much needed bridge between books on community practice and on clinical practice including 33 chapters written by expert social workers psychologists and psychiatrists specifically for clinicians making the transition to community based work this is the first handbook to specifically address this gap and provide meaningful guidance for today s community practitioners its overarching goal is to support the ongoing development of community based mental health care drawing on a wealth of practical examples this groundbreaking collection not only outlines the history and philosophy of community practice but richly illustrates the state of the art with examples from early intervention and development programs school based practice and community mental health services for children families and adults community based clinicians of every stripe will find this handbook indispensable for understanding improving and evaluating their practice while enriching the health and well being of their clients and their communities
